

Antonius Torode

Curriculum vitae

Education

- 2015–2018 **B.S., Physics, Mathematics (Duel Majors)**, *Michigan State University*, East Lansing MI, *GPA – 3.76*.
Graduated with an undergraduate physics degree and mathematics degree.
- 2011–2014 **Undergraduate Studies**, *Oakland Community College*, *GPA – 3.7*.
General studies as well as math/sciences up to and including Calculus III, Differential Equations, Engineering Physics II and General Chemistry II (4.0 in all).
- 2008–2011 **High School**, *Clarkston High School*, Clarkston MI, *GPA – 4.0 (ACT standards)*.
AP Physics, AP Calculus, AP Computer Sciences, CSMTech (3 year advanced math, science and technology program).

Experience

- Summer 2018 **LabVIEW Programmer**, MICHIGAN STATE UNIVERSITY, East Lansing MI.
 - Programming of experimental data acquisition systems for an advanced lab class at MSU.
 - Created accurate documentation for future developers and users of the LabVIEW programs.
- 2017–2018 **Undergraduate Research Assistant**, NATIONAL SUPERCONDUCTING CYCLOTRON LABORATORY, East Lansing MI.
 - I worked in experimental nuclear astrophysics.
 - My primary focus was with scintillator detectors and experimental setups to better understand nucleosynthesis.
 - I also performed calculations and simulations for determining existing detector properties and new detector properties.
- 2016–2018 **P-A Computing Assistant**, MICHIGAN STATE UNIVERSITY, East Lansing MI.
 - I worked to manage and maintain the computers and networks for multiple departments at MSU, including Physics & Astronomy, Physiology, and Microbiology & Molecular Genetics.
 - My responsibilities included fixing any common or difficult problems that may arise while applying my knowledge to maintain or improve efficiency within the department.
- Summer 2016 **Physics Teaching Assistant**, MICHIGAN STATE UNIVERSITY, East Lansing MI.
 - A weekly tutor and an exam proctor for PHY 232C, an online course taught at Michigan State University.
 - In charge of assisting students in the understanding of concepts and problems via both an online forum and in person.

- 2013–2015 **CRLA Certified Math, Physics and Chemistry Tutor**, OAKLAND COMMUNITY COLLEGE, Auburn Hills MI.
- Mathematics lab tutor for fundamental concepts and ideas including but not limited to mathematics, physics and chemistry.
- Summer 2013 **Condensed Matter Physics Research**, OAKLAND UNIVERSITY, Auburn Hills MI.
- Extensively studied Raman spectroscopy and graphite/graphene under high pressures.
 - Performed a Raman spectroscopy experiment on graphene using a diamond anvil cell to achieve high pressures.
 - Personally designed and set up resistivity experiments to confirm findings.
 - Presented research in a professional and comprehensive manner in front of an audience.
- 2011–2013 **Data Research Analyst**, CLRS, INC., Southfield MI.
- Performed Data analysis of different financial markets including the General Motors commercial car market.
 - Learned and filled in for other positions when needed, including management duties.
 - Performed analysis of economic markets and businesses.
 - In depth research of Las Vegas casino populations.
 - Analyzed business functionality and efficiency and improved upon them by shortening data verification process.
- 2010–Present **d0sag3-Films**, HOME BUSINESS.
- d0sag3-Films is a video editing and graphic design title I created.
 - Paid projects for Detroit In Focus but also many personal projects.
 - Many of my projects can be viewed at <https://www.facebook.com/d0sag3> (d0sag3 is spelled with a zero).

Peer Reviewed Publications

- Jan 2018 "Software Development to Determine the Optimal Parameters of a Tape Transport System." Student Journal of Physics - International Version - Vol. 7. No. 1. Jan-March 2018 - Indian Association of Physics Teachers.
- Jun 2017 "Exploration of the Quantum Casimir Effect." Student Journal of Physics - International Version - Vol. 6. No. 2. April-June 2017 - Indian Association of Physics Teachers.

Other Publications and Projects

- 2018 "Multiple Integrated Applications (MIA)." Program created for further development of application design. Contains mathematical functions, encryption algorithms, windows key code simulations, a comprehensive workout generation system, and more.
- Oct 2017 "Characterizing a Tape Station and Beta Detector For Radioactive Isotope Beam Experiments." Conference Poster presented at the Fall Meeting of the Division of Nuclear Physics of the American Physical Society
- 2017 "Generations of Nuclear Activity (GINA)." Program created for performing nuclear decay calculations for a new radioactive transport system at the NSCL.
- 2017 "Local Operations Listing Agent (LOLA)." Program created for improved efficiency and computer database management at MSU.
